MEASURING

When buying clothing, sizes can vary between brands. To ensure the best fit, measure a garment you already wear and compare it to our sizing chart. Garment measurements are more reliable than age-based sizes, as children grow at different rates.

Why compare garment lengths?

- Sizes differ between brands.
- Chest and waist measurements are useful, but garment length is key to fit.
- Kids vary in proportions, meaning one child may need a longer or shorter fit, even with the same waist size.
- Sports shorts have elastic waistbands and drawstrings, so they can fit various waist sizes.

How to measure your current kit:

- Lay the item flat.
- Measure from shoulder to hem for tops or waistband to hem for shorts.
- Compare to our size chart on each product page.

By measuring a garment that fits well, you avoid guesswork and ensure a perfect fit. As all our kits are custom-made, we don't accept returns unless there's a sizing fault that doesn't match our guidelines. All garments have a 2CM measurement tolerance.

FABRICS

Standard vs Elite Cycling Kit

- Fit:
 - Standard: Regular, comfortable fit
 - Elite: Tailored, ergonomic fit designed for movement & agility in high performance applications
- Storage:
 - Standard: Three rear pockets with elasticated top bands
 - Elite: In addition to standard, a zipped side access pocket which runs behind the three outer pockets
- Durability:
 - Standard: Suitable for matches, training, hobbyist or school-level play
 - Elite: Built for high-intensity, frequent training and competitive play
- Ventilation & Fabric
 - Standard: Moisture wicking high quality technical weave fabric
 - Elite: in addition to standard, strategically placed mesh zones for breathability
- Performance Focus:
 - Standard: Prioritizes comfort and general wear
 - Elite: Optimized for athletic performance and agility
